

Construction Equipment Tracking Solution

Hardware Built for the Construction Industry

Wired Options

GV57
Hardwired tracker

GV620
Rugged trailer tracker

- ✓ Rapid real-time location updates every 5-seconds
- ✓ Collect hours of use in real-time, and schedule preventive maintenance with precision
- ✓ Tamper sensors alert when a tracker is disconnected so immediate action can be taken

Battery Options

GL521
Rechargeable, real-time tracker

GL502
Heavy-duty tracker

- ✓ Tamper photo sensor alerts the moment the tracker is removed from machine
- ✓ Options for battery life for up to 10 years
- ✓ Balance between data frequency and battery life by adjusting the ping rate directly in the Hapn app.

Vehicle Options

OBD
Rechargeable, real-time tracker

GV57
Hardwired tracker

- ✓ Manage fleet mileage and scheduled maintenance in real-time
- ✓ Monitor driver behaviors and audit arrival and departure times
- ✓ Handle dispatch on the fly and route drivers to key destinations more quickly through real-time tracking

Ghost Tracker

GV57
Hardwired tracker

GL520
Battery powered, real-time tracker

- ✓ Hardwired tracker provides real-time tracking while battery tracker is hidden in the machine, and asleep
- ✓ If hardwired tracker is removed or destroyed, the thieves think they won, meanwhile, the hidden battery tracker activates and begins tracking.

Software Features

Fleet Maintenance Control

Hapn's robust maintenance management platform syncs up with engine hours and vehicle odometers, then provides generates alerts and creates reports when maintenance is due. Hapn provides a centralized platform where asset history and repair costs can be managed.

Receive Alerts for Suspicious Behavior

Real time alerts go off the moment key events happen. Be notified in real-time when trackers are tampered with, or a device enters an unauthorized area. Notification channels include:

- Text Message
- Email
- Push Notifications

Smart Boundaries Detect Suspicious Activity

See when your tracked assets arrive or leave a designated area. Also helpful to detect unauthorized movement not related to theft.

Mobile App

Visibility and management of the entire fleet can be accessed on the go from any phone or tablet

See All Equipment at a Glance

No more calling or driving around to see where your equipment is. When logging in to the account, all trackers the user has access to will appear on the map. Map is easily filterable to locate specific trackers in real-time.

Add Unlimited Users to Your Account

- Extend control of your fleet to key personnel.
- When theft happens, user can also share access with local authorities.
- Limiting what trackers users & local authorities can follow means less time explaining and relaying locations and quicker resolutions.

Protecting businesses and their assets since 2006

We love our Hapn trackers, especially their software user interface!

Warren Clayton, Owner
Asheville Hwy Rentals

We had one of our brand new trailers stolen yesterday, but thankfully we got it back!

The immediate alert we got when the GPS tracker had been removed from our trailer was one of the main reasons we were able to recover the equipment.”
